Web interface	
Datepicker	
Key configuration	
Printing	
Format	
Specification	
Web information	

DataStores

- ✓ .Net Environment
 - ✓ Generators
 - C# Default (C# Web)
 - ✓ SmartDevices (Smart Devices)
 - Android (Android)
 - Swift (Swift)
 - ✓ DataStores
 - Default (SQL Server)

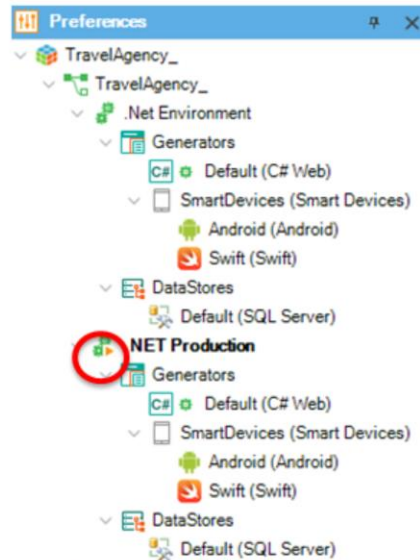

Properties

Filter

▼ DataStore: SQL Server

Type	DataStore
Description	SQL Server
▼ Access technology settings	
Access technology to set	ADO.NET
List of external stored procedures	
▼ Connection information	
Database name	Id4fc8c05444310bd91926e861e...
Server name	trialapps3.genexus.com
Server TCP/IP port	
Connect to server	At first request
Use trusted connection	No
User id	uPA3xsE9S1q4Juzw
User password	*****
Additional connection string attribute	
> Creation/Reorganization information	
▼ Database information	
SQL server version	2012 or higher
Lock time-out (seconds)	0
Lock retry count	10

Working with more than one environment
