GeneXus Server

Disconnect from GeneXus Server

GeneXus

Once you're synchronized with a KB on the server, it may happen that at a certain moment and for a certain reason you decide to disconnect from it. So, open the Preferences view, select Team Development, right-click and choose Disconnect.

The following confirmation box is displayed, .indicating that once you've disconnected from the server you will no longer be able to perform Commit to the server or Update from the server operations. Click on Yes to disconnect the local KB from the server.

Disconnect from GeneXus Server

	care men cayo	at balla kilointeagenianag
	New	•
	Open	•
	Close	CTRL+F4
	Close Knowledge Base	
0	Save	CTRL+S
e	Save All	CTRL+MAYUSCULAS+S
â	Send Knowledge Base to GeneXus Server	
	Page Setup	
	Print	CTRL+P
	Print Preview	
	Recent KBs	•
	Exit	

In this way, the KB is enabled to be sent to the Server, and therefore the option Send Knowledge Base to GeneXus Server is displayed as available below the File menu.
