To take an exam, follow the steps below:

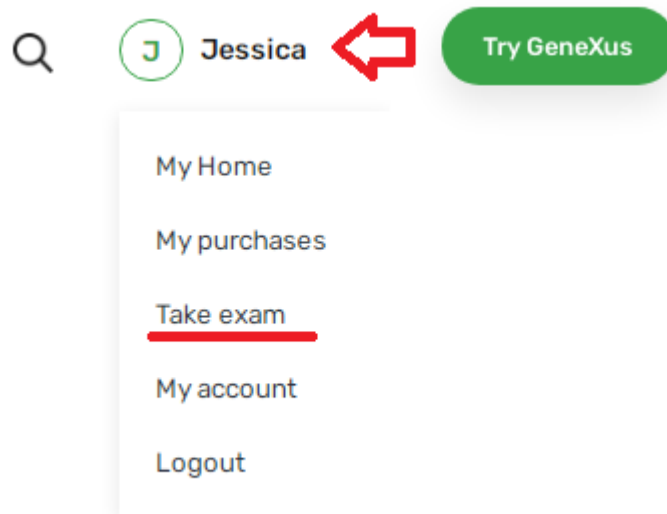

Enter the website www.training.genexus.com. Check that the website is in the desired language. For that, at the bottom of the page you will find a drop-down list to select the language.

Log in with your credentials (GeneXus username and password) in the Login option (top right).

Once logged in, a series of options is displayed within that menu. Choose the option Take exam.

Check that the exam listed is the one you are taking.

Finally, select START and begin the exam by reading the instructions.
Good luck!
